

LET IT ROCK

Didn't want to talk that night,
No reason to put up a fight,
That was the situation.
I felt weak, not really tired,
The air was warm, a cat was crying
When I arrived at the station.
Wondered why nobody was out;
That was the last thing I needed.
'Cos everything I was talking about
Were the songs that I bleed for:
To let it rock.

Slowly first, then one by one
The doors were opened up and then
I was encircled by a mass like you.
I realised, I faced my fate,
For this only time it was not late,
It just came true.
I'm ready to do it by myself,
But I invite you
Share your time with us
And let us make it true.

Let It Rock
Let It Rock

Say it loud – shout it out – be proud
Let it rock – the much you can – let it roll
Let it rock – let it rock
